Presentation on Mountains and Mountaineering in Kazakhstan Page 2 ~ 50

MOUNTAINEERING AND SPORTCLIMBING FEDERATION OF REPUBLIC OF KAZAKHSTAN
MOUNTAINEERING AND SPORTCLIMBING FEDERATION OF REPUBLIC OF KAZAKHSTAN
Kazakhstan is located in Asia and is rich with its resources for mountaineering.

The East, the South and the Southeast of Kazakhstan are surrounded with mountain regions with convenient entrances and infrastructure.
In the East of the country, bordering with Russia, the mountain chain of Altai is located. The highest point is peak Belukha, 4506 m.
The South of Kazakhstan is presented by the Ugamsky Ridge, which crowned by Sayram peak, 4238 m.
In the Southeast of the country the most attractive mountains of Kazakhstan are - the Central and Northern Tien Shan. The highest point of Northern Tian Shan is Talgar Peak, 5017 m.
The most beautiful and highest peak in Kazakhstan is Mt. Khan Tengri, located in the Central Tian Shan. It has the correct pyramidal form and is visible from far away. The height of the mount is 7010 m.
Annually MCFRK holds more than 30 sports mountaineering events: competitions – rock climbing, dry-tooling, sky-running; ice climbing; educational training camps; training seminars; mass climbing.

Participation in:
Ice Climbing World Cups and Asian Ice Climbing Championships.

more than 20 sport climbing events:
Kazakhstan sport climbing cups 8;
Kazakhstan championships 2;
Seminars for trainers and judges.

Participation in:
Youth Asian Championships;
Asian Championships;
Asian Cup;
World Cups;
Youth World Championships;
World Championships;
Mass climbing collects most number of participants – when hundreds of participants ascend on mountain top at the same time. Almaty city is the leader in carrying out such ascensions. Annually about 10 thousands people participate in such events.
The route of mass climbing is prepared for safe climbing in advance by people experienced in mountaineering. Such actions promote public awareness of mountaineering and motivate many participants to start training in climbing clubs and sections.
The main stationary training mountaineering base in Kazakhstan is “Tuyk Su” Camp, placed in 25 km from Almaty city, at the height of 2400 m.
Climbing courses, mountaineering competitions, school of instructors and mass climbing are regularly held here. In the area there are more than 150 climbing routes from 1B to 5A of category of difficulty.
On this training, the instructors teach participants to climb and descend on a mountain landscape.
Master class of ice-climbing.
The athletes are attracted by the equipped multipitches up to 200 meters long, 5 of which have been specially prepared for the Euro - Asian Championship in mountaineering.
Some sectors include rock climbing routes 6a — 6s categories of difficulty which are equipped with safety jumpers and are cleared of “moving” stones.

The main and only ground for high-altitude climbing in Kazakhstan is the Central Tien Shan Mountains. Annually dozens of Kazakh climbers make ascensions on tops of Khan Tengri Peak, 7010m., Marble Wall, 6400 m. and other peaks.
There are few five-thousand-meter peaks: Karlytau (5450 m), Kazakhstan (5761 m), and Bayankol (5791 m), that attract climbers for their first high-altitude experience.
Ascent to Karly Tau Peak
Marble Wall Peak, 6400m.
The highest peak of Kazakhstan is Mt. Khan Tengri, 7010m. the most northern peak over 7000 m on the planet.
Athletes of higher qualification throw down a challenge to a North Face of Mt. Khan Tengri, 7010m.

Kazakh climbers made ascents of the highest category of difficulty to this mountain.
Annually Kazakh climbers were on the top of Khan Tengri again.
On September 3-4, MCFRK has held the championship of Kazakhstan which was a selection stage for the Euro - Asian Championship.
The strongest climbers of Kazakhstan not just competed, but demonstrated quick and safe work on a route.
The Euro - Asian Championship was held to September 2016 and 2017 in the framework of Almaty Mount Fest. In Kazakhstan, competitions of such level were held for the first time. The Euro-Asian association of mountaineering and MCFRK have acted as organizers.
Routes have been equipped with expansion anchors. At each station there are two hooks blocked by a chain with a trigger ring. Length of sites — to 30 meters. Complexity level from 5s to 7b. Rocks are cleared of "live" stones. The championship has taken place — routes remained.
In the Euro – Asian Championship climbers of the highest class from Kazakhstan, Russia and Ukraine participated.
